

# PROJECT STORM

Storm Water Drain Net Project

In June 2019, the Dyer Island Conservation Trust, in partnership with the Overstrand Municipality, placed a trash collection net at a storm water drain outlet in the Gansbaai Harbour, an area notorious for plastic pollution.

A PROJECT OF

IN PARTNERSHIP WITH

## GOALS

- ◆ Minimise ocean bound marine pollution
- ◆ Avoid injuries and ingestion by marine animals
- ◆ Collate waste statistics to drive change
- ◆ Recycle relevant waste
- ◆ Educate the public

## HOW TO

- ◆ Assess the storm water drain network in your area
- ◆ Work in cooperation with your local municipality
- ◆ Involve a NPO/NGO that could manage and monitor
- ◆ Assess and study the waste collection
- ◆ Recycle what you can
- ◆ Education to your local community
- ◆ Nets should be custom made
- ◆ Maintenance a priority in the rainy season
