

Cody Van Reenen

For me my experience on roughing it out was wonderful, awesome, well worth and fun because I got to go to places I never went before in my life and I also got to meet new people and make new friends. We stayed for two weeks. Our opponents were the Orcas.

A few places we went to was Drakenstein Lion Park and animal sanctuary, Fynbos Guest Farm, Waterval nature reserve and Aquila Game Park and Nature Reserve, where we did challenges and fun activities. We also had to create a team name and a war cry, so our team's name was the Stingrays. My team members were Rochelle, Catherine and Zachree. We loved our team name and one another because we worked well as a team and we had lots of fun together as a team.

Some of our challenges required us to do very weird things like collecting animal droppings and poop, packing chicken pieces for lions, do obstacles blind folded with your team members leading you and telling you what to do. We even had to spit sheep droppings and catching and eating scorpions.

My favourite parts of our two weeks together were going to places I haven't been at before, like going to Equine Sport Centre. We did one of my favourite challenges called English Mounted Games which basically meant doing obstacles on a horse while one of your team members had you on the horse.

Some challenges we won and others the Orcas won. It was tough across the two weeks because both our teams worked

very hard and it was a really close competition right to the end, but we were glad for the other team and this was the first time on Roughing It Out that the teams were so close to each other with points and the first that consisted of ten challenges. watching TV or being on the phone the whole day. Thank you.
